

MARTOR SAFETY KNIVES. IDEAL FOR YOUR CUTTING APPLICATIONS.

THE SAFER WAY TO CUT.

martor

WHY SAFETY KNIVES?

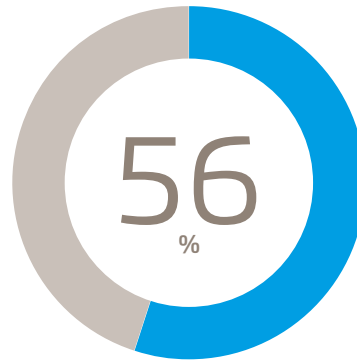

Everyone knows that wherever cutting takes place, injuries will happen. These can be painful for users, and expensive for employers. Cutting injuries almost always happen because cutting tools are suboptimal, i.e. unsafe.

The solution: safety knives.

Facts and figures (using Germany as an example)

Number of knife-based "reportable workplace accidents" that occurred in Germany in 2024 (Source: German Social Accident Insurance, 2025).

More than half of all workplace accidents involving manual tools were caused by (usually sub-optimal, unsafe) knives. (Source: German Social Accident Insurance, 2025).

Each knife-based workplace accident results in up to 7.4 days off work (Source: German Accident Insurance and Prevention in the Food and Catering Industry, 2024).

Every lost workday costs employers around 500 euros on average.

WHY MARTOR SAFETY KNIVES?

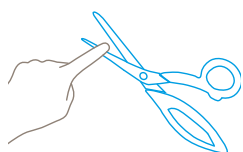

As a leading international manufacturer and supplier, the Solingen-based family-run company MARTOR offers a wide range of high-quality, GS-approved safety knives. They are termed safety knives because they are equipped with reliable safety technologies that protect both users and packaged goods.

MARTOR safety technologies

SECUPPLUS

No sharp blade

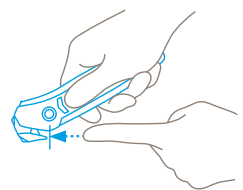

Special safety:

The tool does its work without a sharp blade. There is no cutting edge on which you can injure yourself.

SECUMAX

Concealed blade

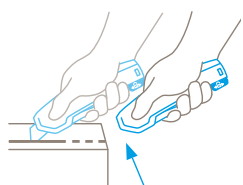

Maximum safety:

The blade is securely shielded to prevent contact with you.

SECUPRO

Fully automatic blade retraction

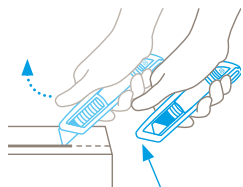

Very high safety:

The blade disappears instantly – also when you continue to press the blade release.

SECUNORM

Automatic blade retraction

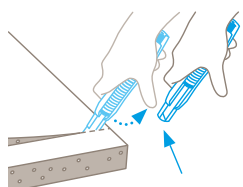

High safety:

The blade retracts. Just remove your thumb from the slider beforehand.

SECUBASE

Blade retraction and locking

Optional safety:

The blade will instantly retract after cutting unless you have locked it.

THE RIGHT PROFESSIONAL TOOL FOR YOUR CUTTING JOB.

MARTOR safety knives reduce the risk of accidents while also being especially comfortable, efficient and versatile. Examples of the most common cutting applications, and a selection of MARTOR products best suited to them, are listed below.

SAFETY KNIVES FOR 3-PLY CARDBOARD BOXES.

Thick cardboard is one of the toughest materials to cut. Whether removing the cover or cutting to size, the handle and blade are subjected to the greatest forces here. That's why this is clearly a job for absolute professionals.

SECUMAX 370

- First GS-certified SECUMAX knife with an extendable cutting channel
- Made of recycled plastic (at least 35 %)
- Suitable cutting depth of up to 10 mm
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. double-sided slider and adhesive tape splitter

SECUPRO 625

- Extremely robust squeeze-grip knife made of aluminium
- Very large cutting depth of 21 mm
- Fully automatic blade retraction
- Very high work safety
- Incl. soft grip, smooth lever and safety lock

SECUNORM 500

- Extremely robust all-round knife made of aluminium
- Large cutting depth of 17 mm
- Automatic blade retraction
- High work safety
- Incl. soft grip and double-sided slider

Product	Order number	Packaging unit	Installed blade
SECUMAX 370	370001.02	1 in single unit box (10 knives in multipack)	SECUMAX BLADE NO. 3770
SECUPRO 625	625001.02	1 in single unit box (10 knives in multipack)	TRAPEZOID BLADE NO. 60099
SECUNORM 500	50000110.02	1 in single unit box (10 knives in multipack)	TRAPEZOID BLADE NO. 65232

SAFETY KNIVES FOR 2-PLY CARDBOARD BOXES.

2-ply cardboard is ubiquitous as a packaging material. It's best to always keep our perfectly suited safety knives within easy reach. From removing the flaps to window cutting, they reliably get the job done – and also protect the packaged goods.

SECUMAX 350

NR. 3448

- Comfortable all-round knife made with glass fibre reinforced plastic
- Very robust blade head with 6 mm cutting depth
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. soft grip and spare blade in the handle

SECUPRO 425

- Very lightweight squeeze-grip knife made of recycled plastic (60 %)
- Reduced cutting depth of 15 mm
- Fully automatic blade retraction
- Very high work safety and high protection of goods
- Incl. smooth lever and safety lock

SECUNORM 500 (9 mm)

- Extremely robust special knife made of aluminium
- Reduced cutting depth of 9 mm
- Automatic blade retraction
- High work safety and high protection of goods
- Incl. soft grip and double-sided slider

Product	Order number	Packaging unit	Installed blade
SECUMAX 350	350005.02	1 in single unit box (10 knives in multipack)	SECUMAX BLADE NO. 3448
SECUPRO 425	425095.02	1 in single unit box (10 knives in multipack)	TRAPEZOID BLADE NO. 60095
SECUNORM 500 (9 mm)	50000210.02	1 in single unit box (10 knives in multipack)	TRAPEZOID BLADE NO. 65232

SAFETY KNIVES FOR 1-PLY CARDBOARD BOXES.

1-ply boxes are often smaller in size and cut particularly quickly. This makes it all the more important to use cutting tools equipped with reliable safety technology. The cutting depth is adjusted to match the thickness of the material.

SECUMAX 350 SE

NR. 3550

- Comfortable all-round knife made of recycled plastic (98%)
- Very versatile blade head with 6 mm cutting depth and adhesive tape splitter
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. spare blade in the handle

SECUPRO MARTEGO

- Extremely robust squeeze-grip knife made of aluminium
- Suitable cutting depth of 9 mm
- Fully automatic blade retraction
- Very high work safety and high protection of goods
- Incl. soft grip, smooth lever and safety lock

SECUNORM 175

- Compact box cutter made of recycled plastic (90%)
- Suitable cutting depth of 10 mm
- Automatic blade retraction
- High work safety and high protection of goods
- Incl. double-sided slider

Product	Order number	Packaging unit	Installed blade
SECUMAX 350 SE	350040.02	1 in single unit box (10 knives in multipack)	SECUMAX BLADE NO. 3550
SECUPRO MARTEGO	122001.02	1 in single unit box (10 knives in multipack)	INDUSTRIAL BLADE NO. 92
SECUNORM 175	175001.02	1 in single unit box (20 knives in multipack)	INDUSTRIAL BLADE NO. 45

SAFETY KNIVES FOR ADHESIVE TAPE.

Standard adhesive tape can also be opened with the tape splitter. If the tape is reinforced or has multiple layers, the sharp blade is recommended. This works just as well with a SECUMAX knife as it does with a SECUNORM knife.

SECUMAX 350

NR. 3550

- Comfortable all-round knife made with glass fibre reinforced plastic
- Very versatile blade head with 6 mm cutting depth and adhesive tape splitter
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. soft grip and spare blade in the handle

SECUMAX 150

- Handy disposable knife made of recycled plastic (80 %)
- Very versatile blade head with 6 mm cutting depth and adhesive tape splitter
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. two cutting edges and additional scraper

SECUNORM 175

- Compact box cutter made of recycled plastic (90 %)
- Suitable cutting depth of 10 mm
- Automatic blade retraction
- High work safety and high protection of goods
- Incl. double-sided slider

Product	Order number	Packaging unit	Installed blade
SECUMAX 350	350001.02	1 in single unit box (10 knives in multipack)	SECUMAX BLADE NO. 3550
SECUMAX 150	150001.12	10 in box (loose)	Non-changeable, thickness: 0.30 mm
SECUNORM 175	175001.02	1 in single unit box (20 knives in multipack)	INDUSTRIAL BLADE NO. 45

SAFETY KNIVES / SCISSORS FOR STRAPPING.

When it comes to strapping, the range extends from standard to heavy-duty. Our recommended products work with any type of plastic strapping. Here's a tip for strapping that is often under high tension: Always cut at an angle.

SECUPLUS 564

- Robust safety scissors made of stainless steel and glass fibre reinforced plastic
- Extra-long blades for "hooking" under the strap
- Specially ground, front rounded cutting edges
- Special work safety
- Incl. soft grip and thumb opening

SECUMAX 320

- Comfortable special knife made of recycled plastic (mind. 80 %)
- Particularly pronounced, flat knife nose for "hooking" under the strap
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. soft grip and adhesive tape splitter

SECUMAX 350

NR. 3448

- Comfortable all-round knife made with glass fibre reinforced plastic
- Very robust blade head for "hooking" under the strap
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. soft grip and spare blade in the handle

Product	Order number	Packaging unit	Installed blade
SECUPLUS 564	564001.00	1 on self-service card (10 scissors in multipack)	
SECUMAX 320	32000110.02	1 in single unit box (10 knives in multipack)	INDUSTRIAL BLADE NO. 92043
SECUMAX 350	350005.02	1 in single unit box (10 knives in multipack)	SECUMAX BLADE NO. 3448

SAFETY KNIVES FOR FILM.

Often tricky: material that can jam during cutting. That's why these specialized knives are equipped with a long knife nose. This helps you position the knife precisely and guide the film cleanly towards the blade.

SECUMAX EASYSAFE

- Special knife made of glass fibre reinforced plastic
- Pointed knife nose for piercing and a holding bar as a cutting aid
- 7 mm cutting depth, even for multi-layer and thicker films
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. adhesive tape splitter

SECUMAX 320

- Comfortable special knife made of recycled plastic (mind. 80%)
- Particularly pronounced, flat knife nose for inserting into the material
- 4 mm cutting depth, even for thicker films
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. soft grip and adhesive tape splitter

SECUMAX POLYCUT

- Slim card knife made of plastic
- Long knife nose for inserting into the material
- 3 mm cutting depth, for cutting along curves even in tight spaces
- Concealed blade
- Maximum work safety and maximum protection of goods

Product	Order number	Packaging unit	Installed blade
SECUMAX EASYSAFE	121001.02	1 in single unit box (10 knives in multipack)	INDUSTRIAL BLADE NO. 45
SECUMAX 320	32000110.02	1 in single unit box (10 knives in multipack)	INDUSTRIAL BLADE NO. 92043
SECUMAX POLYCUT	8500012.12	10 in box (loose)	Non-changeable, thickness: 0.30 mm

SAFETY KNIVES WITH GOODS PROTECTION.

Damaged goods are both inconvenient and expensive. To avoid unwanted results when unpacking, we therefore recommend safety knives with concealed blades. Or knives with extra small cutting depths.

SECUMAX 370

- First GS-certified SECUMAX knife with an extendable cutting channel
- Made of recycled plastic (at least 35%)
- Cutting depth of 6 to 10 mm, optimized for packaging
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. double-sided slider and innovative blade head

SECUPRO MARTEGO

- Extremely robust squeeze-grip knife made of aluminium
- Cutting depth of 9 mm, optimized for packaging
- Fully automatic blade retraction
- Very high work safety and high protection of goods
- Incl. soft grip, smooth lever and safety lock

SECUNORM 500 (5 mm)

- Extremely robust special knife made of aluminium
- Cutting depth of 5 mm, optimized for packaging
- Automatic blade retraction
- High work safety and very high protection of goods
- Incl. soft grip and double-sided slider

Product	Order number	Packaging unit	Installed blade
SECUMAX 370	370001.02	1 in single unit box (10 knives in multipack)	SECUMAX BLADE NO. 3770
SECUPRO MARTEGO	122001.02	1 in single unit box (10 knives in multipack)	INDUSTRIAL BLADE NO. 92
SECUNORM 500 (5 mm)	50000310.02	1 in single unit box (10 knives in multipack)	TRAPEZOID BLADE NO. 65232

SAFETY KNIVES FOR FILM AND PAPER ROLLS.

Cutting from a roll is a skill that takes practising. For example, you can start at the desired point and use the roll as a base. Alternatively, you can unroll the required length, keep the material taut and then make the cut.

SECUPLUS 210

- Plastic material splitter
- No sharp blade; cutting is achieved solely by lever action
- Long blade tip for precise insertion
- Special work safety
- Incl. long, smooth contact surface

SECUMAX OPTICUT

- Special knife made of plastic
- Extremely robust knife nose for precise insertion and a holding bar as a cutting aid
- 7 mm cutting depth, even for multiple and thicker layers
- Maximum work safety and maximum protection of goods
- Incl. metal sliding base

SECUMAX EASYSAFE

- Special knife made of glass fibre reinforced plastic
- Pointed knife nose blade tip for precise insertion and a holding bar as a cutting aid
- 7 mm cutting depth, even for multiple and thicker layers
- Concealed blade
- Maximum work safety and maximum protection of goods
- Incl. adhesive tape splitter

SECUNORM 380

- Special knife made of glass fibre reinforced plastic
- Extra-long, flexible blade for cutting along the roll, e.g. for trimming to length or removing the end cap
- Automatic blade retraction
- High work safety
- Incl. soft grip, large slider and safety lock

Product	Order number	Packaging unit	Installed blade
SECUPLUS 210	210001.13	20 in box (loose)	
SECUMAX OPTICUT	437.02	1 in single unit box (5 knives in multipack)	INDUSTRIAL BLADE NO. 37040
SECUMAX EASYSAFE	121001.02	1 in single unit box (10 knives in multipack)	INDUSTRIAL BLADE NO. 45
SECUNORM 380	380001.02	1 in single unit box (10 knives in multipack)	STYROPOR BLADE NO. 79

SAFETY KNIVES FOR FOAM AND POLYSTYRENE.

For foam and polystyrene, we recommend a blade length of XL or XXL. The serrated blade from MARTOR also really comes into its own here. All options cut just like a traditional utility knife – only safer.

SECUNORM 540

- Extremely robust special knife made of aluminium
- XL cutting depth of 36 mm
- Automatic blade retraction
- High work safety
- Incl. large slider

SECUNORM 380

- Special knife made of glass fibre reinforced plastic
- XXL cutting depth of 73 mm
- Extra-long, flexible serrated blade, ideal for sawing through foam
- Automatic blade retraction
- High work safety
- Incl. soft grip, large slider and safety lock

SECUBASE 383

- Special knife made of glass fibre reinforced plastic
- XXL cutting depth of up to 73 mm
- Extra-long, flexible serrated blade, ideal for sawing through foam
- Choice between blade retraction and locking (seven settings)
- Optional work safety
- Incl. large slider and safety lock

Product	Order number	Packaging unit	Installed blade
SECUNORM 540	54000410.02	1 in single unit box (10 knives in multipack)	STYROPOR BLADE NO. 7940
SECUNORM 380	380005.02	1 in single unit box (10 knives in multipack)	STYROPOR BLADE NO. 379 (Serrated edge)
SECUBASE 383	383005.02	1 in single unit box (10 knives in multipack)	STYROPOR BLADE NO. 379 (Serrated edge)

SAFETY KNIVES / SCISSORS FOR CUTTING TO SIZE AND FINISHING.

Whether it's PVC, wallpaper or vinyl: you'll find what you need here for your handcraft projects too. All our cutting tools offer the necessary precision and durability. Choose according to the material and the required cutting depth.

SECUPLUS 564

- Robust safety scissors made of stainless steel and glass fibre reinforced plastic
- Very long blade length of 85 mm, ideal for precise and curved cuts
- Specially ground, front rounded cutting edges
- Special work safety
- Incl. soft grip and thumb opening

SECUPRO 625

- Extremely robust squeeze-grip knife made of aluminium
- Very large cutting depth of 21 mm
- Fully automatic blade retraction
- Very high work safety
- Incl. soft grip, smooth lever and safety lock

SECUBASE 383

- Special knife made of glass fibre reinforced plastic
- XXL cutting depth of up to 73 mm
- Extra-long, flexible blade, e.g. ideal for cutting wallpaper strips to size
- Choice between blade retraction and locking (seven settings)
- Optional work safety
- Incl. large slider and safety lock

Product	Order number	Packaging unit	Installed blade
SECUPLUS 564	564001.00	1 on self-service card (10 scissors in multipack)	
SECUPRO 625	625001.02	1 in single unit box (10 knives in multipack)	TRAPEZOID BLADE NO. 60099
SECUBASE 383	383001.02	1 in single unit box (10 knives in multipack)	STYROPOR BLADE NO. 79

SAFETY KNIVES FOR HEAVY-DUTY CUTTING.

For rubber mats or carpet, for example, choose a power-house like the SECUPRO 625. But the other professional knives are also equipped to handle the toughest jobs, such as slabbing off a roll.

SECUPRO 625

- Extremely robust squeeze-grip knife made of aluminium
- Version with a shorter blade (15 mm cutting depth) for the most demanding applications
- Fully automatic blade retraction
- Very high work safety
- Incl. soft grip, smooth lever and safety lock

SECUPRO MEGASAFE

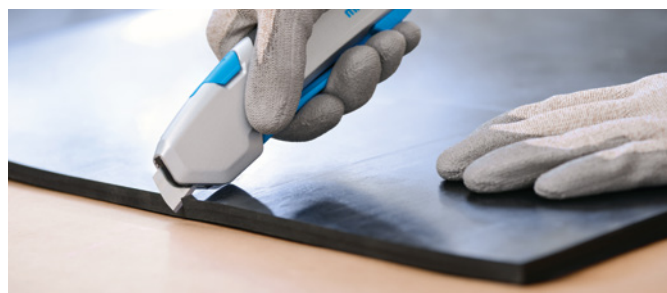

- Extremely robust all-round knife made of aluminium
- Version with a hook blade (14 mm cutting depth) for special applications
- Fully automatic blade retraction
- Very high work safety
- Incl. soft grip and double-sided slider

SECUNORM MULTISAFE

- Extremely robust all-round knife made of zinc
- Very large cutting depth of 22 mm
- Automatic blade retraction
- High work safety
- Incl. slider on top

Product	Order number	Packaging unit	Installed blade
SECUPRO 625	625095.02	1 in single unit box (10 knives in multipack)	TRAPEZOID BLADE NO. 60095
SECUPRO MEGASAFE	116002.02	1 in single unit box (10 knives in multipack)	HOOK BLADE NO. 98
SECUNORM MULTISAFE	8152.02	1 in single unit box (10 knives in multipack)	TRAPEZOID BLADE NO. 5232

SAFETY KNIVES / SCISSORS FOR BAGGED GOODS.

Sacks are made of paper, plastic, etc. For this, you need tools like these, which can cut through all layers. Dusty, liquid and granular contents are no match for them either.

SECUNORM 610 XDR

- First GS-certified safety knife with (automatic) blade retraction and maximum resistance to dirt
- Made of paint-free aluminium and metal detectable plastic
- XL cutting depth of 32 mm
- High work safety and optimal cleanability
- Inkl. smooth lever, safety lock, stainless steel blade and holster (extra)

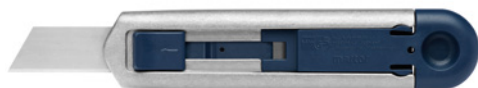

SECUPLUS 567 MDP

- Robust safety scissors made of stainless steel and metal detectable plastic
- Extra-long blades for quick cutting, e.g. even through multi-layered sacks
- Right-angled ground, front rounded cutting edges
- Special work safety and optimal cleanability
- Incl. thumb opening

SECUNORM PROFI40 MDP

- Extremely robust special knife made of paint-free aluminium and metal detectable plastic
- XL cutting depth of 36 mm
- Automatic blade retraction
- High work safety and optimal cleanability
- Incl. single-sided slider and stainless steel blade

Product	Order number	Packaging unit	Installed blade
SECUNORM 610 XDR	610001.02	1 in single unit box (5 knives in multipack)	LARGE SPECIAL PURPOSE BLADE NO. 160060
SECUPLUS 567 MDP	567001.00	1 on self-service card (10 scissors in multipack)	
SECUNORM PROFI40 MDP	11900771.02	1 in single unit box (10 knives in multipack)	STYROPOR BLADE NO. 17940

SAFETY KNIVES / SCISSORS FOR SENSITIVE AREAS. (I)

Foreign objects in the production process pose a major risk. A clever solution: metal-detectable safety knives and scissors that can be traced even in the smallest of parts.

SECUNORM 610 XDR

- First GS-certified safety knife with (automatic) blade retraction and maximum resistance to dirt
- Made of paint-free aluminium and metal detectable plastic
- XL cutting depth of 32 mm
- High work safety
- Incl. smooth lever, safety lock, stainless steel blade and holster (extra)

SECUNORM PROFI40 MDP

- Extremely robust special knife made of paint-free aluminium and metal detectable plastic
- XL cutting depth of 36 mm
- Automatic blade retraction
- High work safety
- Incl. single-sided slider and stainless steel blade

SECUNORM PROFI25 MDP

- Extremely robust all-round knife made of paint-free aluminium and metal detectable plastic
- Very large cutting depth of 21 mm
- Automatic blade retraction
- High work safety
- Incl. single-sided slider and stainless steel blade

SECUNORM HANDY MDP

- Compact box cutter made of stainless steel and metal detectable plastic
- Reduced cutting depth of 9 mm
- Automatic blade retraction
- High work safety and high protection of goods
- Incl. double-sided slider and stainless steel blade

Product	Order number	Packaging unit	Installed blade
SECUNORM 610 XDR	610001.02	1 in single unit box (5 knives in multipack)	LARGE SPECIAL PURPOSE BLADE NO. 160060

SECUNORM HANDY MDP	447.02	1 in single unit box (20 knives in multipack)	INDUSTRIAL BLADE NO. 145

SAFETY KNIVES / SCISSORS FOR SENSITIVE AREAS. (II)

All MDP products from MARTOR are optimised for your working environment: our certified knives and scissors are easy to clean and just as suitable for food contact as our stainless steel blades.

SECUNORM SMARTCUT MDP

- Small all-round disposable knife made of metal detectable plastic
- Reduced cutting depth of 12 mm
- Automatic blade retraction
- High work safety and high protection of goods
- Incl. double-sided slider and stainless steel blade

SECUMAX 320 MDP

- Comfortable special knife made of metal detectable plastic
- Particularly pronounced, flat knife nose for easy positioning
- 4 mm cutting depth, even for thicker films
- Concealed, stainless steel blade
- Maximum work safety and maximum protection of goods
- Incl. adhesive tape splitter

SECUMAX 150 MDP

- Handy disposable knife made of metal detectable plastic
- Very versatile blade head with 6 mm cutting depth
- Concealed, stainless steel blade
- Maximum work safety and maximum protection of goods
- Incl. two cutting edges, splitter and scraper

SECUMAX 145 MDP

- Small, lightweight disposable knife made of metal detectable plastic
- 4 mm cutting depth for thinner material
- Concealed, stainless steel blade
- Maximum work safety and maximum protection of goods
- Incl. two cutting edges

Product	Order number	Packaging unit	Installed blade
SECUNORM SMARTCUT MDP	110700.02	1 in single unit box (20 knives in multipack)	Non-changeable, thickness: 0.63 mm
SECUMAX 320 MDP	32000771.02	1 in single unit box (10 knives in multipack)	INDUSTRIAL BLADE NO. 192043
SECUMAX 150 MDP	150007.12	10 in box (loose)	Non-changeable, thickness: 0.30 mm
SECUMAX 145 MDP	145007.12	10 in box (loose)	Non-changeable, thickness: 0.50 mm

SECUMAX POLYCUT MDP

- Slim card knife made of metal detectable plastic
- Long knife nose for inserting into the material
- 3 mm cutting depth, for cutting along curves even in tight spaces
- Concealed, stainless steel blade
- Maximum work safety and maximum protection of goods

SECUMAX RING KNIFE MDP

- Ring-shaped disposable knife made of metal detectable plastic
- 6 mm cutting depth for cords and fibres
- Concealed, stainless steel blade
- Maximum work safety and maximum protection of goods
- Incl. a loop for wearing on the finger

SECUPLUS 567 MDP

- Robust safety scissors made of stainless steel and metal detectable plastic
- Extra-long blades for quick cutting, e.g. even through multi-layered sacks
- Right-angled ground, front rounded cutting edges
- Special work safety
- Incl. thumb opening

MDP TEST CARD SET

- Five cards, each containing a plastic ball between 2.5 and 8.0 mm thick
- For calibrating and testing your metal and X-ray detectors
- Balls made from the same metal-detectable plastic as our MDP products

Product	Order number	Packaging unit	Installed blade
SECUMAX POLYCUT MDP	8500772.12	10 in box (loose)	Non-changeable, thickness: 0.30 mm
SECUMAX RING KNIFE MDP	307.08	loose (50 knives in multipack)	Non-changeable, thickness: 0.30 mm
SECUPLUS 567 MDP	567001.00	1 on self-service card (10 scissors in multipack)	
MDP TEST CARD SET	9910.09	set of 5 in polybag	

PRACTICAL EXTRAS: PRODUCTS FOR SAFE WORKING.

The right accessories are essential. Our range ensures that your cutting tool is kept safe, utensils are close at hand, or disposes of your used blades in the optimal way.

TOOL BELT

- Durable polyester belt with an extremely sturdy metal buckle
- For securely attaching and organizing various MARTOR work tools, such as belt holsters and the TOOL RETRACTOR
- Compatible with work clothing with or without belt loops
- Can be extended to a length of up to 140 cm
- Also available as a set with the BELT HOLSTER XXL (NO. 995001.09)

BELT HOLSTER XXL

- Extra spacious nylon belt holster
- For safe storage and transport of your MARTOR cutting tools and other work equipment
- Large sealable inner compartment and large outer compartment including optional knife safety device
- Fastening by clip, Velcro fastener or belt

BELT HOLSTER S, M, L

- Belt holsters (in S, M and L) made of flexible and durable nylon
- For safe storage and transport of your MARTOR cutting tools
- Extra compartments for blade packets, pens, etc.
- Fastening by clip or Velcro Fastener

TOOL RETRACTOR

- Flexible holder for your safety knife (with eyelet)
- For safe transport and efficient working with your cutting tool
- Robust Kevlar cord (up to 90 cm long) incl. retraction mechanism
- Fastening by carabiner to belt loop or similar

Product	Order number	Packaging unit
TOOL BELT	9950.06	1 in polybag
BELT HOLSTER XXL	9924.08	loose (1) (5 belt holsters in multipack)
BELT HOLSTER S	9920.08	loose (1) (10 belt holsters in multipack)
BELT HOLSTER M	9921.08	loose (1) (10 belt holsters in multipack)
BELT HOLSTER L	9922.08	loose (1) (10 belt holsters in multipack)
TOOL RETRACTOR	9960.06	1 in polybag (20 polybags in multipack)

CUTTING MATS

- Cutting mats made of robust, self-healing plastic
- For use as an underlay for manual cutting tasks
- With imprinted grids (cm/inch) on the four larger mats

USED BLADE CONTAINER

- Large, sturdy plastic container for collecting used steel and ceramic blades
- Lid for sealing the full container for disposal with the normal waste
- Wall mount bracket (not included) for mounting on walls, pipes and bars

CONNECTOR SET

- Combination of CONNECTOR and TELESCOPIC POLE for up to 95 cm of additional reach
- For easier cutting at a distance
- Flexibly adjustable plastic CONNECTOR, sturdy aluminum TELESCOPIC POLE
- CONNECTOR compatible with SECUMAX 148, 150, 350, and 350 SE

Product	Order number	Packaging unit
CUTTING MAT 870 x 620 mm	3001.06	1 in polybag

DISCOVER OUR WORLD OF SERVICES.*

What sets us apart? It is certainly our particularly broad and comprehensive range of services. A MARTOR expert is always at your side. Whether at your premises, in a seminar or webinar, on the phone, by email or in a video conference – together we will find the right format for our exchange and the best way to find the optimal cutting solutions.

E-Business

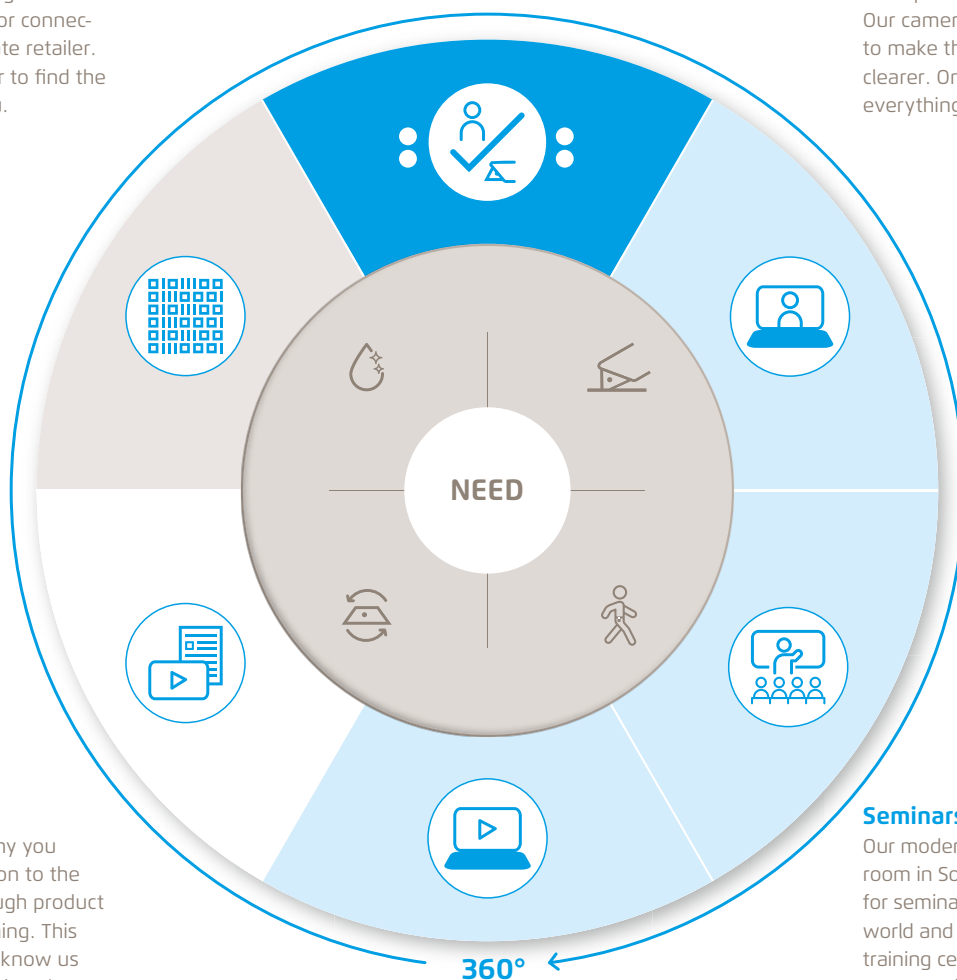

Our e-business offerings optimise and automate our digital data exchange, e.g. through a direct EDI connection and/or connection to the appropriate retailer. Let us work together to find the best solution for you.

SECUFIT – our service right at your doorstep

With SECUFIT, you receive exclusive support directly on site. Our MARTOR cutting expert works with you to determine the most suitable cutting tools. You test and select them, and we train your teams. This ensures that everything runs smoothly and without risk.

Online cutting advice

Our fast service is available if you have a specific cutting problem or a special product question. Our cameras are switched on to make the consultation even clearer. On request, we can record everything for you and your team.

Media service

Our media accompany you from your introduction to the MARTOR world through product presentation to training. This allows you to get to know us and our cutting solutions better and use them even more safely and efficiently.

Webinars

Our webinars are practical and tailored to your topics. Missed a session? No problem. All content is also available as a recording.

Seminars

Our modern MARTOR showroom in Solingen is available for seminars. It is both a brand world and a perfectly equipped training centre. Our MARTOR experts will pass on their cutting knowledge to you in a lively and hands-on way.

* Varies according to the country or region

YOUR INQUIRIES AND REQUIREMENTS: OUR PERSONAL SUPPORT.

You haven't found the tool for your specific application? No problem. MARTOR will certainly have the optimal solution for you too. Contact us.
